Work Experience

team lead within my pod

Ayagigs / Frontend

November 2022 to May 2023

NOVEMBER 2022 - MAY 2023, Remote
I participated in the Ayagigs fellowship program, focusing on the back
track. Additionally I took on the role of a team lead within my pod. At
conclusion of the program, our project was recognized as the best am
the participants. Throughout the program, I worked closely with the Ayagigs frontend developers to develop https://www.ayaversity.com

Software Engineer

Stringcode Limited

2018 to 2022

92 Peter Odili Rd, opposite Trans-Amadi, Gardens Es
500102, Port Harcourt, River State, Nigeria
As part of a team of developers, I contributed as a frontend engineer t
create a web application for medical diagnosis
I provided guidance to junior frontend engineers and focused on
instructing them in HTML5, CSS SaaS and React.js
I also joined a team of developer to recreate the company website usi
React.js https://stringcodeltd.com
